FOR IMMEDIATE RELEASE

COOLSPACE TAKES THE WORK OUT OF BEING COOL

Summer is not too far off and **COOLSPACE** would like to remind you on how easy and affordable it is to cool your shop, garage, barn, tent, hangar, nursery, dry cleaner and any other place where conventional air conditioning is not an option but heat relief is necessary. **COOLSPACE** comes in 4 different sizes and 7 different models, engineered to cool off any size job, from a single person to several thousand square feet, **COOLSPACE** has the cooler to fit the job.

The importance of keeping you and your employees comfortable during the hot summer days will make the work more enjoyable and create more production. **COOLSPACE** has engineered their portable evaporative coolers to be user friendly, maintenance free with high quality that gives off temperature drops reaching **26 degrees** and with a national average operational cost of less than **\$1** a day.

COOLSPACE has more features than any other cooler, making it the **Most User Friendly Cooler on the Market** and backed with the **Longest Warranty in the Industry**. The most popular feature is the **large built in water reservoir** which allows hours of operation without needing a water connection, making our cooler the most portable. **COOLSPACE** has an **automatic shut off on the pump** which protects the pump when the reservoir runs dry. **COOLSPACE** has **thick 8" edge coated cooling media** which offers more surface area for evaporation equaling greater temperature drops, compared to the 2"-6" cooling media the competition uses. The edge coated cooling media offers a lot more durability allowing your cooling media a longer life span. These features and many more make **COOLSPACE** the most user friendly and coolest portable evaporative cooler on the market!

COOLSPACE portable evaporative coolers takes the work out of being cool, simply plug into your standard outlet, add water and roll it to where ever you want it.

So don't let the hot summer heat slow you down, call **COOLSPACE** today **(800-557-5716)** and let our friendly trained staff help you keep your employees and shop cool this summer.
